

Dockets Management Branch (HFA-305)  
Docket No. 98N-1265 APR 27 1999  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I use a compounded medication, simply put - vegetable based estrogen, to control symptoms of menopause. I live in MD, and this prescription comes from Madison Pharmacy Assoc., Inc. (Women's Health America Group) in Madison, WI.

This prescription changed my quality of life from horrific to wonderful. Prior to this compounded estrogen medication I was on a pharmaceutical drug called PREMARIN - which is animal-based estrogen made from horse urine. It gave me minimal relief from the symptoms of menopause - and horrible side effects (constipation, bloating from a size 8 to size 14 in 3 months, and migraines). Without access to my current presc., I would rather be dead.

Please fold, seal, and mail by March 22
